

Africalist – Subsaharan Africa on Shortwave

Update: 09.06.09

edited by Thorsten Hallmann, africalist{a}versanet.de

using various sources, especially Glenn Hauser's DXLD and the A-DX-Mailinglist, and of course my ears and your comments

For more detailed country-by-country information read „Africa on Shortwave“ by Tony Rogers, BDXC – www.bdx.org.uk

Introduction: What is this and Why all this?

This is a list of short wave broadcasting stations from Subsaharan Africa for listeners worldwide. This is not a complete list of all somewhat african short wave stations and is not intended to be one, as it omits intentionally (almost all) stations from north of the Sahara, from South Africa and Swaziland, those broadcasting to Africa from somewhere else in the world, and African relays of external services from anywhere else.

Why that? Mainly because their schedules are in general easy to find out somewhere else in the web (the stations homepages or Africa on Shortwave, see above). Also they are relatively easy to listen to. I'm much more interested into the others which are more difficult to monitor: Many of them do not publish schedules, many even do not have a webpage, or it's outdated. Most stations from Subsaharan Africa also can't be heard via live stream or satellite, but only via SW. Often, frequencies are changed without announcement, stations disappear and sometimes reappear, or new stations appear out of the informational nothing. Within the DXing community, reliable and up-to-date information on these stations is sometimes hard to find, and there are quite a number of errors in the loglists. On the other hand, some listeners wonder what they might have heard on this or that frequency, or if and where they may find a certain station. So I try to collect, weight, condense and comment all this information with the aim to have an up-to-date, accurate and comprehensive reference, free to use but with no warranty.

On the one hand, this list should give the actual (activity) status of the stations and frequencies, on the other hand it is an archive of somewhat „outdated“ information also, like at least a small selection of frequencies used in the past. I cannot keep a complete "backlist" of inactive stations and frequencies, but I try to refer at least to those I have some hope that they may be back on air sooner or later. To keep the list compact and easy to administer, I do not collect addresses and URL, QSL policy and similar information, you will find much of this in WRTH; Sender und Frequenzen or BDXC page.

Not any detail, however, will 100% correct and up-to-date. That's simply impossible. But if I do have serious doubts, you will find a remark on that. The same applies if I give information that it somewhat tentative, as this if better than no information.

Part 1: Stations by Frequency

Key to Frequency list

column C Official Status or Background of the Station

- nothing government or public station
- I independent / commercial / non-governmental station
- P station of political party
- R religious / missionary station
- S separatist / rebel station
- U United Nations and/or Fondation Hirondelle

column D Current Activity status based on observations in the past few months

- a active or most likely active more or less regularly
- u current status unconfirmed, not heard in recent months
- x off-schedule, testing or temporarily used as alternative frequency
- j likely used for jamming purposes or to escape jamming only
- s only sporadic reports, probably very irregular operation
- i most likely inactive
- f future plans

column E power in kW if stated somewhere

column F logged in 200x

reception in Europe:

- ++ regularly, generally in good quality
- + quite regularly, easy to listen to
- o now and then, not so easy
- rarely reported, difficult to listen to
- very unlikely to catch it

ratings generally follow my own listening experience (except early mornings), usually outside reception with portable Sony receiver, so this is in fact possible without an expensive semi-professional receiver.

Freq.	Station	C	D	E	F	times	remarks	reception in Europe
3289	RTV Madagasikara		a	10?	9	0200-0500, 1500-1900v (sat -2100 or all night)		-

	RNT	4905	Nat.	i	m+e	alt. 6165/7120
		6165	Nat.	a (irr)	g	alt. 4905/7120, f.pl. 9615, 11760
Congo (Brazzaville)						
Radio Congo likely inactive, used to operate two TXer repaired by chinese technician only a few years ago						
	Radio Congo	4765	Nat.	i		
		5985	Nat.	i		
		6115	Nat.	u		possibly very irregular
		9610	Nat.	i		
Congo (Kinshasa)						
RTVNC not heard for years, last activities on 15245 (Kinshasa) and 7205/7435 (Lubumbashi), new 10kw-txers for Goma and Bukavu delivered in 2003, but unheard, it's also uncertain what happened to the three 10kw-txers of Radio Okapi in Kinshasa						
	R. Candip, Bunia	5066	Reg.	a	m+d	
	R. Kahuzi, Bukavu	6210	Relig. + r. VOA	a	g	s/off varies from 1600 to 2005, the latter especially on mon+fri
	R. Okapi	6030/9550	Nat./UN	i	24	own transmitters unheard for a while
		9635/11690/ 11890	Nat./UN	a	04-06, 16-17	via meyer-ton
Cote d'Ivoire						
RTI inactive on 4910, 6015, 7215, 11920						
Djibouti						
	RTV Djibouti	4780	Nat.	a	g	
Equatorial Guinea						
	R. Bata	5005	Nat.	a	g	irregular
	R. Malabo	6250	Reg.	a	d/g	supposed to operate new 20kW tx
	R. Africa	15190	Relig. US relay	a	g	irregular, also ID as R. Africa 2 & R. East Africa, alt. 7190
Eritrea						
many Eritrean opposition or clandestine programmes aired via Jülich, Samara etc., schedules are quite variable. Due to jamming operations by Ethiopia, ERI txers may change frequencies, especially in the afternoons: 5100, 5940, 5955, 5990, 7090-7120, 7165-7220 and 7999.4 have been reported or are likely to be used sometimes, likely VoBME operates three txers and Bana Radio operates an additional, so it's four altogether, but not all seem to be used regularly. Channel 1 operates in Tigrigna and others, Channel 2 in Arabic, Amharic and others.						
	VoBME	7100	ex-1	i	g	
		7175	mostly 2	a	g	often jammed, may change to 7165 and/or use another channel in //
		7210	mostly 1	a	g	may be on 7220 or other nearby channel in // or alternatively
		7999.4	ex-1	i	m/e	

	Bana Radio	5100	educational	u	g	mornings + afternoons, English at 0500, sometimes jammed
Ethiopia						
	many Ethiopia opposition or clandestine programmes aired via Jülich, Samara etc., schedules are quite variable, ETH uses jamming against these and many other transmissions such as Eritrea, VOA and Deutsche Welle. Likely to use up to 10x100kW + noise jammers + occasionally the old 10kW units (2x Mekele, 2x Addis)					
	Radio Ethiopia	5990v	Nat.	a	g	mostly // to MW services on 594, 684, 828, 855, 873, 891 and 972 (possibly also 918+1044)
		7110	Nat.	a	g	sporadically also on 7100/7115/7175
		7165	Ext.	a	*	0700-0800 Somali 1200-1500 East African languages, 1600-1800 English/French, may carry anti-ERI clandestine px 0400/1500/1800

		7155		i		
		9705	Nat.	i	m+e	last heard in december 2008
Nigeria						
	Generally, transmissions from Nigeria are quite irregular due to the bad state of transmitters and other infrastructure, VON hopes to have new transmitter site for SW AM/DRM near Abuja ready in 2009, papers also reported that RTV Borno (Maiduguri) will activate a new SW tx. Specialists hear quite a number of MW from all over the country. FRCN Kaduna will install a new 200kW MW unit, unknown if also new shortwaves planned.					
	VON	7255	Ext.	a		to West Africa 2100-2300, other times alt. to other freqs: 2100 French, 2200 Hausa
